Azver came between her and them, her words releasing him from the paralysis of mind and body that had held him. "Tell Thorion we will meet him on Roke Knoll," he said. "When he comes, we will be there. Now come with me," he said to Irian..She had planted a young rowan from the Grove beside the fountain. They came to be sure it was thriving. The spring wind blew strong, seaward, off Roke Knoll, blowing the water of the fountain astray. Up on the slope of the Knoll they could see a little group of people: a circle of young students learning how to do tricks of illusion from the sorcerer Hega of O; Master Hand, they called him. The sparkweed, past flowering, cast its ashes on the wind. There were streaks of grey in Ember's hair.."Where's your mother?" he asked in a whisper..founded a school on Roke as a center where they might gather and share knowledge, clarify the.He heard an eagle scream. "Then it's time we talked a bit to you," she said, sitting down across.The one with a voice like a deep-toned bell looked at her too, and spoke to her with a plain, kind severity. "As I see it, the man who brought you here meant to do harm, but you do not. Yet being here, Irian, you do us and yourself harm. Everything not in its own place does harm. A note sung, however well sung, wrecks the tune it isn't part of. Women teach women. Witches learn their craft from other witches and from sorcerers, not from wizards. What we teach here is in a language not for women's tongues. The young heart rebels against such laws, calling them unjust, arbitrary. But they are true laws, founded not on what we want, but on what is. The just and the unjust, the foolish and the wise, all must obey them, or waste life and come to grief.".In her bed, in the dark, she lay and thought: He knew the wizard who named me. Or I said my name.."I'm never cold," she said. "It was him.".Eight rows of gray seats, a fir-scented breeze, a hush in the conversations. I expected an."My lord," said one of them with a fine, dark face and a wizard's oaken staff, "we do trust you.,praying to itself. I do not know how long I watched. The cat's dreams came into his mind, in the low fields where he spoke.name's Hawk.".Hound came in on her heels. "Well," he said, "in the first place, when I got to the city, I go up to the palace, just to hear the news, and what do I see? I see old King Pirate standing on his legs, shouting out orders like he used to do. Standing up! Hasn't stood for years. Shouting orders! And some of em did what he said, and some of em didn't. So I got on out of there, that kind of a situation being dangerous, in a palace. Then I went about to friends of mine and asked where was old Early and had the fleet been to Roke and come back and all. Early, they said, nobody knew about Early. Not a sign of him nor from him. Maybe I could find him, they said, joking me, hm. They know I love him. As for the ships, some had come back, with the men aboard saying they never came to Roke Island, never saw it, sailed right through where the sea charts said was an island, and there was no island. Then there were some men from one of the great galleys. They said when they got close to where the island should be, they came into a fog as thick as wet cloth, and the sea turned thick too, so that the oarsmen could barely push the oars through it, and they were caught in that for a day and a night. When they got out, there wasn't another ship of all the fleet on the sea, and the slaves were near rebelling, so the master brought her home as quick as he could. Another, the old Stormcloud, used to be Losen's own ship, came in while I was there. I talked to some men off her. They said there was nothing but fog and reefs all round where Roke was supposed to be, so they sailed on with seven other ships, south a ways, and met up with a fleet sailing up from Wathort. Maybe the lords there had heard there was a great fleet coming raiding, because they didn't stop to ask questions, but sent wizard's fire at our ships, and came alongside to board them if they could, and the men I talked to said it was a hard fight just to get away from them, and not all did. All this time they had no word from Early, and no weather was worked for them unless they had a bagman of their own aboard. So they came back up the length of the Inmost Sea, said the man from Stormcloud, one straggling after the other like the dogs that lost the dogfight. Now, do you like the news I bring you?".spirits of the dead; many, many of them. He was terrified of them and cowered, trying to make a.from me?". "We have to finish the work here," he told her, and she looked at him mildly. All animals were patient, but the patience of the horse kind was wonderful, being freely given. Dogs were loyal, but there was more of obedience in it. Dogs were hierarchs, dividing the world into lords and commoners. Horses were all lords. They agreed to collude. He remembered walking among the great, plumed feet of cart horses, fearless. The comfort of their breath on his head. A long time ago. He went to the pretty hinny and talked to her, calling her his dear, comforting her so that she would not be lonely..that he thought about his pupil, and not until he had eaten supper alone that he admitted that.have the strength in me to stop the man when he fled, nor the wits to send anyone after him. And.him. No, it had become a habit after Silence left, he thought, with the bit of his mind that went."There are good men there," he said. "Great and wise the Archmage certainly was. But he's gone. And the Masters . . . Some hold aloof, following arcane knowledge, seeking ever more patterns, ever more names, but using their knowledge for nothing. Others hide their ambition under the grey cloak of wisdom. Roke is no longer where power is in Earthsea. That's the Court in Havnor, now. Roke lives on its great past, defended by a thousand spells against the present day. And inside those spell-walls, what is there? Quarrelling ambitions, fear of anything new, fear of young men who challenge the power of the old. And at the centre, nothing. An empty courtyard. The Archmage will never return.".So they talked, that long winter, and others talked with them. Slowly their talk turned from vision to intention, from longing to planning. Veil was always cautious, warning of dangers. White-haired Dune was so eager that Ember said he wanted to start teaching sorcery to every child in Thwil. Once Ember had come to believe that Roke's freedom lay in offering others freedom, she set her whole mind on how the women of the Hand might grow strong again. But her mind, formed by her long solitudes among the trees, always sought form and clarity, and she said, "How can we teach our art when we don't know what it is?".butterflies, wooden birds that flew on living wings for a minute or two. There had never been a."I don't either. Morred and Elfarran sang to each other, and he was a mage. I think there's a.below them. "I'll go in, try to keep things
