"This is a nice little town,".He sat up. The dark sea was so quiet that the stars were reflected here and there on the sleek lee side of the long swells. Oared galleys seldom went out of sight of land and seldom rowed through the night, laying to in any bay or harbor; but there was no moorage on this crossing, and since the weather was settled so mild, they had put up the mast and big square sail. The ship drifted softly forward, her slave oarsmen sleeping on their benches, the free men of her crew all asleep but the helmsman and the lookout, and the lookout was dozing. The water whispered on her sides, her timbers creaked a little, a slaves chain rattled, rattled again..During the voyage, however, he talked several times with Dragonfly, which made Ivory a bit uneasy..The clouds darkened. Rain passed through the little valley, falling on the dirt and the grass. Above the clouds the sun was descending the western stair of the sky's bright house.."It must be weird, coming back like this," she said almost in a whisper. She shuddered..After Golden had gone out, she found her son in the counting-room going through ledgers. She looked at the pages. Long, long lists of names and numbers, debts and credits, profits and losses.."I could teach you how to do that for yourself," the wizard said, smiling, watching Otter rub and his own clean comfortable home, even more different from the cold austerity of the wizard's house..water, the living river, forever. He did so at last, watching to see if she was gentle with his friend and would protect her. Then he followed another woman meekly enough. He put on dry clothing she gave him to put on, and ate a little food she gave him to eat, and lay down on the pallet she led him to, and sobbed in weariness, and slept..one eye; pills of some kind? In this isolation he began to practice certain arts that are not well..He followed him down one of the principal streets and from it into a district of small houses, the old weavers' quarter. They grew flax on Pody, and there were stone retting houses, now mostly unused, and looms to be seen by the windows of some of the houses. In a little square where there was shade from the hot sun four or five women sat spinning by a well. Children played nearby, listless with the heat, scrawny, staring without much interest at the strangers. Tern had walked there unhesitating, as if he knew where he was going. Now he stopped and greeted the women..Maybe it was to escape the hunt that Medra came to Pendor, a long way west of the Inmost Sea, or maybe some rumor among the women of the Hand on Hosk sent him there. Pendor was a rich island, then, before the dragon Yevaud despoiled it. Wherever Medra had gone until then, he had found the lands like Havnor or worse, sunk in warfare, raids, and piracy, the fields full of weeds, the towns full of thieves. Maybe he thought, at first, that on Pendor he had found Morred's Isle, for the city was beautiful and peaceful and the people prosperous.."Of course," Golden said, pleased with his son's caution. Nobody on Roke starved or went unhoused, though nobody had much more than they needed. Hidden from the rest of the world not only by sea and storm but by their defenses that disguised the island and sent ships astray, they worked and talked and sang the songs, The Winter Carol and The Deed of the Young King. And they had books, the Chronicles of Enlad and the History of the Wise Heroes. From these precious books the old men and women would read aloud in a hall down by the wharf where the fisherwomen made and mended their nets. There was a hearth there, and they would light the fire.
